PROBLEM STATEMENT
(Intelligent Vehicle Damage Assessment And Cost Estimator For Insurance Companies)

➢ **Automobile section is one of the most important and major sector in India . Major problem faced by the customer on insurance companies are not having idea about the cost of the damage.**

➢ **Insurance Companies are failing to provide right amount for the car damage and the customer not able to claim for the damage.**

➢ **Developing a solution which can able to identify the right cost for the damage would be beneficial for many.**
